

Deer Hunting with rifles.
Nov 11, 2013

Deer Hunting with rifles allowed effective November 1st

Several residents were present and took part in the discussion on the use of rifles during deer hunting at the October Town Board Meeting. The concern was the distance the bullets can travel and the safety of lives and properties. There is not enough time for any thoughtful consideration and to gather facts needed to adopt an ordinance to prohibit the use of rifles in the town. Rifles can be used in the Town of Poygan this year, 2013. It was decided that after deer hunting, in December the issue will be discussed again.
